

KEY

- Proposed Turbine Location
- 10km Radii
- 20km Local Study Area
- 40km Study Area

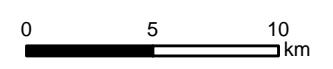

Cumulative Wind Farm Status

- Operational / Under Construction

Cumulative Zone of Theoretical Visibility:

- Strath Tilly Theoretical Visibility
- Gordonbush Plus Extension Theoretical Visibility
- Combined Theoretical Visibility

CWF blade tip:	110 - 149.9m
Strath Tilly blade tip:	135m
DTM:	OS Terrain 5 DTM
DTM resolution:	10m
Surface features:	Excluded
Earth curvature:	Included

Scale 1:300,000 @ A3

open optimised environments
